This COMPLETELY Updated four-bedroom, two-bath property is ready to become your home. The seller has taken his time, paid attention to detail, and has continued upgrading this home over the past couple of years. The house sits on a corner lot with beautiful new landscaping. The entire exterior of the home was just painted. In the interior, you will find that the kitchen and both bathrooms have been beautifully renovated. Neutral fresh paint throughout with all new lighting, hardware, and so much more. The master is very spacious with a generous-sized closet, a completely renovated full master bathroom, new tile flooring, and a beautiful custom tile shower with a gorgeous new double sink vanity. Three additional bedrooms were freshly painted with beautiful flooring. The living room is cozy and offers a great multifunctional space with all the natural lighting and a grand wood-burning fireplace. The open living room and dining area make for easy entertaining. The spacious kitchen has loads of beautifully refinished cabinets, countertops, new appliances, new light fixtures, a new sink, and a facet with all the natural lighting.

The laundry room is just off the kitchen, large enough to have a great “keeping room,” and would make a great mudroom with entry from the carport and backyard entertaining space. The large, covered patio that runs across the back is perfect for grilling and entertaining; it has plenty of space for both grilling and entertaining. It’s accessible from the family living room. You will also find a newly renovated gated backyard with fresh new sod! It is situated in a well-developed subdivision and is convenient for just about everything. Take a look for yourself. Every surface of this home has been upgraded, and you won’t be disappointed. All upgrades per seller. Buyer/Buyer’s agent to verify any and all information deemed necessary to the buyer.
