This custom built home truly embodies Southern charm and modern convenience! With gorgeous wood floors throughout and soaring ceilings, it exudes elegance and openness. The open floor plan seamlessly connects the kitchen, family room, and dining area, perfect for both everyday living and entertaining guests. The kitchen is a chef's dream, featuring granite countertops, custom cabinets, double dishwashers, and a double oven, along with a large island with a gas stovetop.

The living and dining areas are enhanced by two separate fireplaces and six sets of French doors, which open to deep covered porches that wrap around the home, inviting relaxation and outdoor enjoyment. The master suite is conveniently located on the main floor, while upstairs you'll find three additional spacious bedrooms and two bathrooms. An unfinished third floor, accessible via a traditional staircase, offers potential for additional livable space.

The exterior is just as impressive, featuring a beautiful rear courtyard, expansive front and side yards, and a double carport. A separate outdoor building, which is heated and cooled, offers further versatility—it could be used as a game room and includes a half bathroom. This property truly combines comfort, functionality, and Southern elegance.
